# COMPANY OVERVIEW

EKO DASH LIMITED is an outstanding supply chain and technical support company. EDL is dedicated to delivering exceptional quality and innovation, which has earned us a reputation as a trusted partner for businesses operating within the oil and gas industry.

EDL represents reliability, professionalism, and dedication. Our experts strive to exceed expectations and set new industry standards.

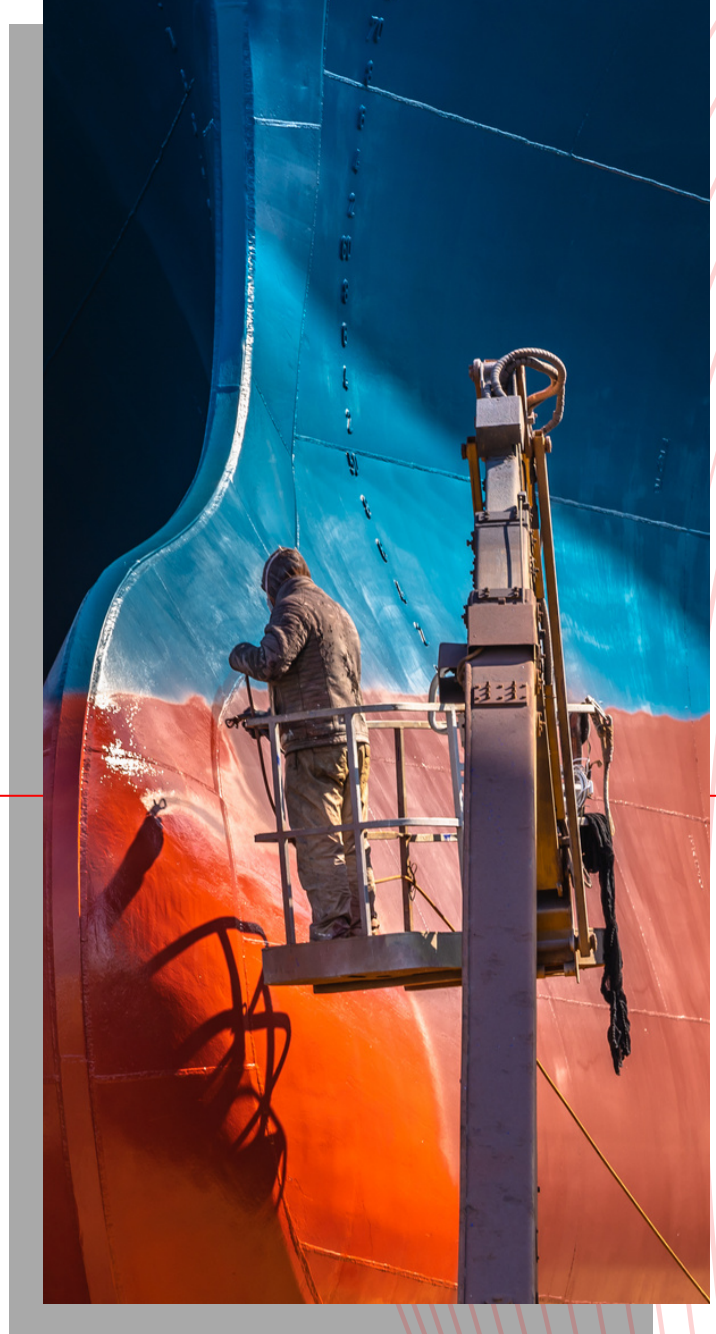

## ABOUT OUR COMPANY

Our diverse services encompass **Engineering, Procurement, Construction Project Management, Facility Maintenance, and Pipeline Maintenance.**

---

At EDL, we are committed to adhering to the highest standards of professionalism while delivering quality services and operating with integrity, all while embracing a strict safety culture.

As a top-tier service provider, we offer end-to-end management of procurement and after-procurement services, including supply, installation, and maintenance.

Our approach is comprehensive, drawing upon a range of disciplines and a global perspective. We are dedicated to developing services that surpass all expectations.

Our partnerships with industry leaders in various fields ensure that our clients receive top-notch service, adhering to international standards and specifications.

# OUR PILLAR

## Vision

We envision a future where the oil and gas industry thrives in harmony with the environment, leading the way in sustainable energy solutions.

## Mission

We strive to become the most trusted and preferred partner for our clients. We aim to contribute to the growth of the industry and the communities we serve.

## Core Value

- Reliability and Commitment
- Diversity
- Health, Safety and Environment
- Teamwork
- Innovation and Implementation
- Ethics

# OUR SERVICES

## Procurement, Installation & Maintenance

We have built enduring partnerships with reliable manufacturers of top-notch products and equipment in the oil industry, which gives us an edge in meeting orders promptly.

We provide after-sales support following installation and maintain a local inventory stock to ensure swift delivery of critical replacement parts. Moreover, we have access to a vast network of suppliers and stockists worldwide, enabling us to source materials globally.

## Engineering Services

We provide various services, including **Electrical and Mechanical** installation and maintenance, **Air conditioning and HVAC system** installation and maintenance, **Wellhead** pressure testing and inspection, **Welding/Fabrication**, **Construction and Automatic** works, and Instrument installation and maintenance.

## Marine Services [Onshore & Offshore]

We offer customized marine services to meet your specific requirements, whether you need them onshore or offshore.

Our team consists of highly skilled and experienced personnel equipped to manage various subsea projects, such as EIA, Bathymetry/Seabed surveys, and Geotechnical surveys. Additionally, we provide Vessel leasing services to support Offshore Engineering and integrity work and new Construction projects.

## Field Service

Our field service covers various activities, including mud logging, Waste management, and Wellhead maintenance services.

EDL provides comprehensive Pipeline maintenance services such as Pipeline cleaning/Pigging, Hydro and Leak testing, and much more.

# PRODUCT/ MATERIAL

## OUTLINE

- Valves (Up To 12")
- Fittings/Flanges
- Rotating Equipment (Pumps & Compressors)
- Filters
- Ropes
- Gasket
- Stud Bolts and Nuts
- OCTG, Seamless Line Pipes
- Drilling Equipment (ASTM, API)
- Hose and Pipes
- Seals
- Varistors
- Actuators
- Firefighting Equipment
- Safety Materials/Equipment
- Agitators
- Sheave
- Regulators
- Belt
- Panel Control
- Amplifiers
- Batteries
- Sockets
- Hand Tools
- Lifting Tools/Equipment
- Manifold and Rollers
- Lighting Luminaries
- Electrical and Mechanical Materials/Equipment
- Production and Drilling Chemicals/Lubricants

### NOTE:

Our rotating equipment serves the hydrocarbon, chemical processing, pulp and paper, power generation, and food and beverage markets worldwide.

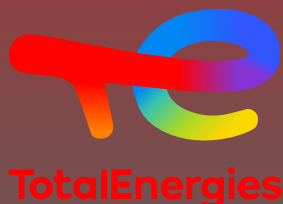

Aftermarket services include spare parts, overhaul, repair, engineering, commissioning, and technical support for rotating equipment.

We ensure quality through our global network of reputable buying houses and original equipment manufacturers (OEMs), with whom we have strategic alliances and a well-developed supply chain process.

# OUR CLIENTS

Each of our services is tailored to meet the individual needs of our clients' businesses in which they are operating. We continue to refine and develop the services offered to our clients in the Nigerian Oil and Gas industry.

**NNPC**  
ANTAN PRODUCING LIMITED

Platform Petroleum Limited

**ND Western**  
*Powering Nations*

# OUR PARTNERS

A mechanical engineering company that manufactures over 150 different products with several thousand variants for liquid, solid, and gaseous media from their dosing and conveying technology divisions, such as dosing and centrifugal pumps, peristaltic pumps, gas/vacuum controllers, and dry feeders.

Lutz-Jesco has been manufacturing dosing pumps - solenoid, stepper, mechanical diaphragm, and piston types, dosing accessories, gas chlorination equipment, chlorine dioxide systems, and associated controllers for over 60 years.

Elmac Technologies offers a market-leading range of patent-protected **Flame Arresters** that have gained widespread recognition and acclaim.

They provide reliable protection against catastrophic explosions and prevent the transmission of flames.

Elmac supplies all significant categories of Flame Arresters.

Pronal is our partner in designing, manufacturing, and supplying flexible solutions developed from flexible materials.

# OUR PARTNERS

Freudenberg Oil & Gas Technologies is a global solutions provider of critical sealing and connector solutions, niche products, and services to the worldwide energy market — including oil and gas, renewables, and alternatives.

They are known for material science, application knowledge, design capabilities, manufacturing capacity, and a differentiated product portfolio.

CEAG Ltd provides a range of lighting products and services to a worldwide customer base.

CEAG has gained an enviable reputation for supplying and manufacturing high-quality lighting and control solutions during this time.

The company has established itself as a trusted supplier to many customers, large and small, around the world.

Point Lighting Corporation has been a leader and innovator in heliport and obstruction I

A fully American-made manufacturer, supplying domestic and global partners with specification-grade products, custom-built solutions, and end-to-end technical expertise.

# OUR PARTNERS

Trelawny SPT manufactures a range of pneumatic tools and surface preparation equipment in the engineering heart of the UK, L  
Trelawny offers a range of equipment for preparing concrete, steel, and stone.

Cottam Brush is a Pioneer in the defense sector, producing products that clean subsea pipelines or brushes used to remove debris from gear cogs during the production of jet engines.

They supply some of the world's most prestigious companies with the precision-engineered custom brushes they need to do the job.

Contec, Inc. is a leading manufacturer of contamination control products for mission-critical cleaning in manufacturing environments worldwide.

Contec's cleanroom wipes and mops are used in various industries across the globe— biomedical, pharmaceutical, automotive OEM, aerospace, and other critical industrial applications.

Eastern Steel is a leading manufacturer and distributor of seamless steel pipe, welded steel pipe, OCTG products, and fittings. We supply first-step processing, semi-finished, and finished parts to help our clients meet fabrication requirements.

## NIGERIAN CONTENT DEVELOPMENT & MONITORING BOARD

### LOCAL CONTENT SUPPORT

We will comply with the Nigerian Oil & Gas Content Development Act, 2010 by involving Nigerian businesses and contractors in our operations.

We will strive to meet the Nigerian Content levels and implement government policies while ensuring the best overall value for the project in terms of price, quality, efficiency, delivery, and operating parameters.

We will maintain a close relationship with the Nigerian Content Development and Monitoring Board and use Nigerian resources while maintaining our quality, health, safety, and environmental standards.
